

My Unforgettable Experience

Do you have pets in your house? Have you ever seen animals from S.P.C.A.? Well I did!

When it was on Saturday, I participated an activity. There were some students, my tutors and myself. We all took a coach. The tutors were explaining what we were going to do at S.P.C.A. when we were in a coach.

We first had to learn about animals. Then, we petted one of the owner's dogs. After that, we also took a look at some animals like dogs, cats and rabbits. There was even a snake there! I felt so surprised about the animals. Finally, we had to leave. I didn't want to, but I had no other choices to pick.

To conclude, I will take good care of my cats that I adopted from S.P.C.A. I've also learned a lot about animals. Visiting S.P.C.A. was also my unforgettable experience.
